March 20, 2019

Dear Parent or Guardian:

The Ohio Department of Health requires all students entering the 7th grade, to have two immunizations, the Tdap and Meningococcal conjugate vaccine or MCV4 (meningitis vaccine).

The Center for Disease Control recommends two doses of MCV4 for adolescents 11 through 18 years of age with the first dose around 11 or 12 years of age and a booster at age 16. According to the new Ohio Department of Health guidelines, your student will be expected to have a second vaccine before entering 12th grade.

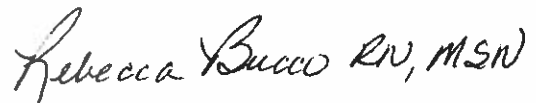

Check your child's immunization record or contact their health care provider to see if your child needs these vaccinations. **Written verification of these vaccines, the Tdap and MCV4, are required prior to entrance into 7th grade.** When your child receives these immunizations, please send a copy of the record to school.

Students who do not have these immunization on file with the district prior to the first day of school, August 27, 2019, will not be permitted to attend school.

Please call if you have any questions, 330-847-2323.

Heather Campbell
Middle School Principal

Rebecca Bucco, RN, MSN
School Nurse
