ATTENDANCE POLICY

In accordance with the Ohio law change regarding student attendance, a student will be considered "habitually truant" if absent without a legitimate excuse for 30 or more consecutive hours, 42 or more hours in one school month, or for 72 hours or more in one school year. As a student gets close to the month or year threshold, the school will notify parent(s) and have a team meeting including the parent(s) to develop an Absent Intervention Plan to ensure regular attendance for the remainder of the school year. If the plan has failed to make satisfactory progress, the school will file truancy charges on day 61 after the plan is implemented. (ORC 3321.19)

STUDENT IS ABSENT

1. Parents are to report their child absent using the SchoolMessenger mobile app, website (go.schoolmessenger.com) or phone 1-844-380-7214. The student must bring a note on the day following the absence stating the date (s) of the absence, the reason, and the parent's signature. Notes should be given to the teacher and sent to the office.
2. If students must leave for planned medical or legal appointments, which have been pre-arranged, they will bring a note from home explaining the reason for the request, the time the student is to be dismissed and signed by the parent/guardian. This note is turned in at the office before 7:45am. Parents must sign-out the student in the office.
3. Students participating in or attending extra-curricular activities/athletics must be in attendance for at least 5 periods on the day of the activity. Students who are excused from school for illness after attending for 5 or more periods will be permitted to return for participation or attendance at extra-curricular activities that day.

Regular attendance by all students is very important. In many cases, irregular attendance is the major reason for poor school work. Therefore, all students will be urged to plan dental appointments, do personal errands, etc, outside of school hours.

Reasons for which students may be absent but unexcused include, but are not limited to:

1. Personal illness of the student
2. Illness in the students family (not to exceed 2 days without physician's excuse)
3. Needed at home to perform necessary work directly and exclusively for parents or legal guardians (applies to students over 14 years of age only)
4. Work at home due to absence of parents or guardians

9. Death of an immediate family member – memorial card or obituary required
10. As determined by the Superintendent

Vacations –The office must be notified one week prior to absence. The attendance policy will be applied. Vacations will be considered unexcused and may be considered truancy. The work must be picked up by the student prior to vacation and due the day they return to class.

HOMEWORK

Homework is assigned to help the student become more self-reliant, learn to work independently, improve the skills which have been developed and complete certain projects. Home study assignments also afford a way for parents to acquaint themselves with the school program and their own children's educational progress.

- **develop** organization and time management skills
- **promote** communication between the school and home
- **encourage** parent awareness

CELL PHONE/WEARABLE TECHNOLOGY

Cell phones/wearable technology (Apple watchers, Fitbits or any device that receives/sends messages) have become a way of life; however, in the school environment, cell phones/wearable technology have become a distraction, interruption, and are not necessary for your child to possess in school. We do recognize that cell phones/wearable technology can be a safety/security tool, but they can be a detriment in the event of a building emergency and our protocol to manage such emergencies in a safe and effective manner.

Parents must not call or text their child's cell phone/wearable technology during the school day; instead, call the office to communicate any messages that may be urgent in nature. Students are permitted to use the office phone if needed; however, they are not permitted to use their cell phones/wearable technology to call or text during school hours, even if they are ill. The school nurse will make the contact home in cases of illness.

USING A CELL PHONE OR AN ELECTRONIC DEVICE TO FILM/RECORD/TAKE PICTURES OF ANY STUDENT OR STAFF MEMBER IS PROHIBITED

If your child does have a cell phone/wearable technology at CMS, it is now required that your child places their phone into each classroom's cell phone pocket holder upon entering and removes it when proceeding to the next class. If a student is found to be in possession during class or use their cell phone/wearable technology during school hours, the device will be confiscated, placed in a labeled envelope, and delivered to the office. The consequences will be as follows:

1st Offense: student will receive a detention and the cell phone/wearable technology held in the office until the end of the day.

Please note the school is not responsible for the theft, loss or damage to your child's cell phone/wearable technology.

Our goal is to create a safe environment, conducive to learning, and free of all distractions that hinder the learning process.

BOOK BAGS & BACKPACKS

Book bags and backpacks and sports bags will be permitted to be carried on the student or can be stored in their lockers. No bookbags with wheels are permitted. Students are expected to take home their Chromebook and charger daily. This will enable the school to go full remote, if deemed necessary.

LOCKER REGULATIONS/SEARCH

Students are provided lockers with which to store materials. It should be clearly understood that this equipment is the property of the school and may be searched at any time if there is reasonable suspicion of a violation of the law or school rules. Locks are to prevent theft not to prevent a search by school officials.

Search of a student and his/her possessions, including but not limited to purses, and/or book bags may be conducted at any time the student is under the jurisdiction of the Board of Education, if there is a reasonable suspicion a violation of school policy has occurred. A search may also be conducted to protect the safety of others. All searches may be conducted with or without the student's consent.

Searches will be based upon reasonable suspicion. In determining whether there is reasonable suspicion, the following factors will be taken into consideration, but not limited to the age, history and school record of the student; the prevalence and seriousness of the problem(s); the need to avoid delay; and the reliability of the information on which suspicion is based.

EQUAL EDUCATION OPPORTUNITY/PROHIBITION AGAINST DISCRIMINATION

This district provides an equal educational opportunity for all students. The Champion Local School District is committed to having an environment free from discrimination including harassment, intimidation or bullying on the basis of race, color, national origin, sex (including sexual orientation and transgender identity), disability, age, religion, ancestry or genetic information. The district prohibits harassment, intimidation or bullying in the school environment, including all academic, extracurricular and school-sponsored activities. A student who violates this prohibition will be subject to the potential penalties set forth in the Code of Conduct Discipline section of this handbook.

Furthermore, Champion Local School District complies with federal laws that prohibit discrimination in programs and activities receiving federal assistance. Title VI of the Civil Rights Act of 1964 prohibits discrimination on the basis of race, color or national origin. The American's with Disabilities Act (A.D.A.) and Section 504 of the Rehabilitation Act of 1973 prohibits discrimination on the basis of handicap. Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex. The Age Discrimination Act of 1975 prohibits discrimination on the basis of age. Champion Local Schools also complies with the Family Education Rights and Privacy Act of 1994 and grants parents/guardians the right to examine children's official school records. Inquiries regarding unlawful discrimination may be directed to the principal of the building.

***These policies and procedures in the Champion Middle School Handbook are subject to change at the discretion of the Champion Local School District**

CHAMPION SCHOOLS TECHNOLOGY ACCEPTABLE USE POLICY

Internet/Online Services/School District Computer Network

Technology misuse extends to the home while using a Champion Local approved device. Students are subject to the Acceptable Use Policy, as well as the Student Code of Conduct.

Champion Schools in striving to offer our students access to the latest computer technology will offer access to the Internet, including certain online services, and the Champion Schools local computer network. Telecommunications, electronic information sources, and networked services significantly alter the information landscape for schools by opening classrooms to a broader array of resources including those from file servers throughout the world. The district's goal is to educate users by providing them with the understanding and skills needed to use the Internet in ways appropriate to their education and information needs. Staff will make every effort to guide and supervise students in an appropriate selection and use of electronic resources. Making the Internet available to students carries with it the potential that some students might encounter information identified as controversial or potentially harmful. Because the Internet is globally accessible and changes daily, it is not always possible to predict what students may encounter in some areas of the Internet. It is possible that your child may find material on the Internet that you consider objectionable. There may be additional kinds of material on the Internet that are not in accord with your family values. We would like to encourage you to use this as an opportunity to have a discussion with your child about your family values and your expectations about how these values should guide your child's activities while they are on the Internet.

On the whole, Champion Schools believe that the tremendous value of the Internet as an educational resource far outweighs the potential risks. Almost all of these risks can be avoided by simply using common sense. However, because of the legitimate concerns, which parents may have, access to computer networks at school should be on a permission basis only. Students without a signed Acceptable Use Policy (AUP) on file will not be permitted to use a computer in the school for any reason. They will be expected to complete an alternate assignment.

1. Acceptable Uses; Limitations

Computer networks shall be used solely for academic purposes or other purposes that support the educational mission of the Champion School District. Computer networks may NOT be used for illegal activities, transmitting or receiving sexually-oriented materials, commercial activity, political activity, personal use, entertainment, accessing unauthorized computers, promoting any illegal activity, or promoting the use of drugs, alcohol, or tobacco.

The School District reserves the right to determine what constitutes acceptable use and to limit computer access to such users. The School District also reserves the right to limit the time of access and to establish priorities among competing acceptable uses.

2. Security and Safety

The Internet and other computer networks may contain information and images that are obscene, offensive, false, fraudulent, or illegal. Other persons using a computer network may also be attempting to exploit children and other users. For these reasons, users

- should not reveal real names, addresses, phone numbers, or other personally identifiable information about themselves or others without the express permission of a supervising teacher
- should not participate in any real-time communications (such as "chat rooms") without the express permission of a supervising teacher
- should not agree to meet any person contacted through a computer network without parental permission
- shall inform his/her teacher of any sexually oriented messages or unsolicited requests for personal information about a student
- should exit immediately from any site containing sexually explicit material or other material deemed inappropriate under this policy and report the incident to a supervising adult.

3. Responsibilities of Users

It shall be the responsibility of the user

- to use the network only for appropriate academic purposes
- to protect their passwords and account numbers and not allow other persons to use their passwords and/or account numbers for any reason
- to immediately notify a teacher or administrator of computer or network malfunctions
- to reimburse the School District for any damages or loss incurred as a result of inappropriate use
- to be a courteous computer user by avoiding the use of language which is obscene, vulgar, abusive, or disrespectful
- to NOT make deliberate attempts to disrupt the computer system and/or network system or destroy data by spreading computer viruses or by any other means.
- to NOT attempt to gain unauthorized access to a computer system and/or network system or go beyond your authorized access. This includes attempting to log in through another person's account or access another person's files, even if only for the purpose of "browsing".

4. **General Prohibitions**

Computer network users

- may not violate any copyright laws
- may not engage in the unauthorized copying of files, programs, or other software
- may not engage in any form of plagiarism
- may not write to any directory other than their own without permission of the supervising teacher
- may not delete or modify any system files
- may not engage in any interference/sabotage/vandalism of others' computers or software

- may not post information of any sorts without permission of teacher
- may not read or send email from a personal account
- may not intentionally waste computer resources
- may not load or copy any software or other programs to or from the district's equipment.

5. **Loss of Privileges**

Computer network access is a privilege and not a right. Any person who engages in an inappropriate use or violates any other provision of this policy may have his/her access privileges suspended or revoked without notice. Violations of this policy may also be punishable under the Student Discipline Policy.

6. **Right of Access**

The School District will make every effort to respect the privacy of students using computer networks. However, the School District reserves the right to examine any such communications or other computer-based information when reasonably necessary to investigate a suspected violation of school rules or this policy, or where necessary to ensure the security and integrity of the computer network. Routine maintenance and monitoring of the system may lead to discovery that the user has or is violating the AUP, the student disciplinary code, or the law.

7. **Disclaimer of Liability**

The School District shall not be responsible for any material encountered on a computer network which may be deemed objectionable to a student or his/her parents, for any inaccurate information disseminated over the network, for any hostile or injurious actions of third parties encountered through a computer network, for any charges incurred by the user of a computer network without prior permission, or for any damage or loss incurred by a user or any subsequent party by the use of files or software obtained over a computer network. Due to the nature of electronic communications, it is also impossible for the School District to guarantee the confidentiality of communication sent and received over any computer network.

8. **Creating Web Pages**

This section is specifically for students creating district-related web pages.

All subject matter on Web pages should relate to curriculum, instruction, and school-authorized activities, general information that is appropriate and of interest to others, or it should relate to the school district, or the schools within the district. Therefore, neither staff nor students may publish personal home pages as part of the Champion Local School District Web site, or home pages for other individuals or organizations not directly affiliated with the district. Student work may be published only as it relates to a class project, course or other school-related activity and only with written permission from the student and parent.

- all district AUP provisions will govern material placed on the Web
- Web pages shall not contain the full name, address, or phone number of students. First names or first names and the first letter of the last name may be used where appropriate.
- Web pages shall not display the photographs or videos of any identifiable individual without a signed picture release. Picture releases for students under the age of 18 must be signed by a parent.
- Web pages shall not contain copyrighted or trademarked material belonging to others unless written permission to display such material has been obtained from the owner.
- material placed on the Web site is expected to meet academic standards of proper spelling, grammar, and accuracy of information.
- users should retain a back-up copy of their Web page(s).
- all Web pages on the district's server are property of the school district.
- any use of advertising or sponsorship that appears on a school web site must be approved by the Superintendent or his/her designee.
